

	<p>Only the top ballistic glass used with custom features included to maintain ballistic protection at temperatures up to 60° C</p>
	<p>Diesel engine with optional turbo is dynamically tuned to duplicate gas (petrol) engine performance:</p> <ul style="list-style-type: none"> <li>- 160 BHP minimum on all motors</li> <li>- Top speed armored to B6 level is 175 Kph</li> </ul>
	<p>Custom coil over shocks in front improve stability. Progressive spring virtually eliminate sway during turning at any speed.</p>
	<p>Heavy duty stabilizer bars front and rear assist in returning stability of the armored vehicle to the OEM performance and increase safety.</p>
	<p>Brake pads changed to high performance pads for improved braking ability.</p>
	<p>Run-flat devices in all tires including spare tire.</p>
	<p>Optional heavy duty bumper with winch and ballistic radiator protection.</p>
	<p>Tread pattern optimized for better handling. OEM tires replaced with higher load rated multiply tires for safety.</p>

	<p>Front discs replaced with ventilated and slotted discs for improved performance to offset higher loads and increase safety.</p>
	<p>Tires filled with nitrogen to reduce over pressure due to heating.</p>
	<p>Rear brake shoes replaced with high performance material for over improved braking and increased safety.</p>
	<p>Rear shocks replaced with custom made coil over shocks fully tested in off road rally race conditions. Smooth outside over all terrain and provide stability to offset increased load due to armoring.</p>
	<p>Heavy duty rear coil springs to enhance stability.</p>
	<p>Only pre-certified ballistic grade steel is used which is fully traceable back to factory production lots.</p>
	<p>Optional roof mounted heavy duty rack for spare tire and luggage.</p>
